

Palliative Care (ii) - Supporting a Person's Needs

The second in a suite of 4 courses that covers the subject of Palliative Care. In this comprehensive suite of programmes, you will cover the following 4 elements:

- Understanding the Meaning of Palliative Care
- **Supporting a Person's Needs in a Palliative Care Context**
- Supporting Physical Care Needs within Palliative Care
- Care During the Final Hours of Life and Bereavement Care

This particular programme will provide a better understand the 'Whole Person' approach to Palliative Care and in addition, you will be able to consider ways to effectively develop your communication skills and support a person with both their emotional and social needs.

Finally, you will learn how to respect a person's religious, spiritual and cultural needs. Upon completion of this course, you will therefore understand:

- a 'whole person' approach to Palliative Care
- communication skills in the context of Palliative Care
- the techniques for supporting a person with their emotional needs
- techniques for supporting a person with their social needs
- how to support a person's spiritual, religious and cultural needs
